

HALKI SUMMIT IV

COVID-19 AND CLIMATE CHANGE: *Living with and Learning from a Pandemic*

The COVID-19 pandemic has permanently affected our planet and altered our lives. The world has wrestled to survive and learned to live with the coronavirus. But what are the lessons that we have learned? What has been the impact on nature and the environment? What have been the implications for healthcare? And what have we understood about the relevance and importance of science?
